

RSU #20  
2011-2012  
SCHOOL BUS RUNS

These runs are set up and are approximate times. For the first two weeks students should be out and waiting for the bus 10 to 15 minutes early as the run times will be adjusted sooner or later depending on the arrival times at the schools. After two weeks the times should be consistent and the students need to be out and ready 5 minutes early of their regular time. Students need to be at the bus stop and within sight as the bus approaches. (near--but not in the road) The bus does not stop and wait for students who are late to the bus stop!
